Modify file App.vue

App.vue

```
<template>
  <h1>{{ title }}</h1>
  <p>Welcome...</p>
  <div v-if="showModal">
```

```
    <Modal theme="sale" @close="toggleModal">
      <template v-slot:links>
        <a href="#">Sign Up now</a>
        <a href="#">More Info</a>
      </template>
      <h1>Sign up for the Giveaway!</h1>
      <p>Grab your swag for half price!</p>
    </Modal>
```

```
  </div>
```

```
  <button @click.alt="toggleModal">open modal</button>
```

```
</template>
```

```
<script>
```

```
import Modal from './components/Modal.vue'
```

```
export default {
```

```
  name: 'App',
  components: { Modal },
```

```
  data() {
```

```
    return {
```

```
      title: 'My First Vue App!',
```

```
      heading: 'Sign up for the Giveaway!',
      text: 'Grab your swag for half price!',
```

```
      showModal: false,
```

```
    }
```

```
  },
```

```
  methods: {
```

```
    toggleModal() {
```

```
      this.showModal = !this.showModal
```

```
    }
```

```
  }
```

```
}
```

```
</script>
